

TALKING ABOUT
HYPOPHOSPHATASIA

CITY MUSEUM

OUR BONES CAN BECOME SOFT AND CURVED.

NORMAL

HPP

AND WE TEND TO BE A LITTLE SHORTER.

TEETH ARE MADE OF MINERALS SO SOME HPP KIDS MAY LOSE THEIR BABY TEETH.

SOME HPP KIDS NEED CRUTCHES OR WHEELCHAIRS.

WE ALL NEED SOME HELP.

WHAT?

WE INHERIT HPP FROM OUR PARENTS, SO YOU CANNOT CATCH IT.

SCIENTISTS ARE NOW WORKING HARD AND HOPEFULLY THERE WILL ONE DAY BE A CURE FOR HPP.

**STILL WE TEND TO
GET TIRED EASILY.**

OUR BONES BREAK EASILY...

...SO NO ROUGH PLAY

**NO ROUGH
PLAY!?**

**BUT WE LIKE TO
PLAY GAMES.**

**WE DON'T LIKE
EATING OUR VEGETABLES.**

**WE ENJOY TALKING
WITH FRIENDS.**

**AND WE DON'T
LIKE EXTRA HOMEWORK.**

**I JUST WANT PEOPLE
TO KNOW THAT HPP
KIDS ARE JUST LIKE
ALL OTHER KIDS.**

**I WOULDN'T
WORRY ABOUT THAT.**

***I THINK
THEY ALREADY
KNOW!***

**FOR FURTHER INFORMATION ABOUT HPP,
PLEASE VISIT THE [SOFTBONES](http://WWW.SOFTBONES.ORG) WEBSITE
WWW.SOFTBONES.ORG
OR CONTACT US AT:
[EMAIL: JANE@SOFTBONES.ORG](mailto:JANE@SOFTBONES.ORG).**
